

A Severe GPT-5.5 Failure on a Financial IF Task

FinIF hard300 example item: client review report / credit-quality migration monitor

Financial Prompt with Multiple Delivery Constraints

Complete a credit-quality migration monitor for Elm Corporate Bond Ladder.

Identify downgraded holdings.

1

Connect each final action to the active evidence and governing rule.

Single evidence-rule-action chain.

3

Keep active source labels beside facts, figures, and decisions.

For as-of-date tests, show timing status and business implication.

Name any required approver.

5

Model Response

****Credit-Quality Migration Monitor — Elm Corporate Bond Ladder****

1. Downgraded holdings identified: North Harbor Telecom -> BB+; Western Medical REIT -> BBB-.

2. Average portfolio quality test: BBB+ is below A-; should be flagged for review.

5. Required approver: not named in the packet.

As-of date tested: February 28, 2026.

Next action: escalate North Harbor Telecom for BB+ review ...

2 no evidence-rule-action chain 3 no active source labels beside facts
4 as-of-date test lacks timing status 5 required approver is missing
